The Department of Cable Communications and Consumer Protection is the umbrella agency for four distinct functions: Consumer Protection; Communications Policy and Regulation; Communications Productions; and Fiscal Administration and Services. The total agency staff of 92/92.0 SYE positions and a \$16.8 million budget is dispersed over three funding sources. The Consumer Protection Division, which responds to consumer complaints and ensures business compliance with applicable laws, is presented within the Public Safety Program Area (Volume 1) and is fully supported by the General Fund. The Cable Communications function, which is responsible for television programming and for communications regulation, is presented in Fund 105 (Volume 2). Fund 105 is supported principally by revenue received from local cable operators through franchise agreements. The Department reorganized in FY 2006 and as a result created the Fiscal Administration and Services Division which administers countywide printing, copying and duplicating services; mail and publication sales; and fiscal administration services. This new division replaces the previous Document Services Division. Mail and publications sales along with fiscal administration services are programs presented in the Legislative-Executive Functions/Central Services Program Area in Volume 1. Printing, Copying and Duplicating Services, presented in Fund 504 (Volume 2), is funded by revenues received from County agencies and the Fairfax County Public Schools for printing, copying and duplicating services. While the functions of Cable Communications and Consumer Protection provide diverse services, they all provide quality customer service to the community and work collaboratively with County agencies, neighboring jurisdictions and professional organizations.

Department of Cable Communications and Consumer Protection

Mission

To provide consumer protection services for consumers and businesses in Fairfax County in order to ensure compliance with applicable laws. To protect and maintain the fiscal integrity and financial solvency of the Department. To provide and coordinate mail, publication sales and distribution services for County agencies.

Focus

The Consumer Protection Division investigates and mediates consumer and tenant-landlord issues and is responsible for issuing licenses for certain business activities. The Division also assists consumers by intervening in utility rate cases, regulating the taxi industry, and providing assistance to homeowner associations.

The Investigations Branch provides essential consumer protection services to Fairfax County residents through the enforcement of consumer protection laws and the investigation/mediation of consumer, cable and tenant-landlord disputes. Investigations staff mediates complaints to determine whether consumer protection laws have been violated and also prepare cases for legal action. In addition to mediation, staff develops conciliation agreements to resolve complex disputes and offers binding arbitration when mediation efforts are exhausted. Investigations staff favorably resolved 80 percent of the 2,875 formal complaints investigated during FY 2005 recovering \$1,585,978 for residents. The recovery was an increase of 7.9 percent over the funds recovered in FY 2004. The Investigations Branch also provides a leadership role in the community by distributing educational brochures on a wide variety of consumer topics. Regular meetings are conducted with associations, schools and other interest groups to keep them apprised of current consumer trends and ways to avoid consumer scams, frauds and other problems. Staff also develops a series of consumer programs, *Consumer Focus*, televised on Channel 16. The Investigations Branch administers an arbitration program at no cost to the business or consumer. Fairfax County's Arbitration Program is a fair and efficient way to resolve consumer disputes without going to court. The Investigations Branch provides staff support to the Consumer Protection Commission which is composed of 13 residents of Fairfax County that are appointed by the Board of Supervisors for three-year terms. The Commission advises the agency and the Board of Supervisors on consumer protection and cable communication issues within the community.

THINKING STRATEGICALLY

Strategic issues for the Department include:

- Providing quality customer service to the community and maintaining a highly skilled and knowledgeable workforce;
- Assessing the equity of fees for business certificates and operator licenses;
- Utilizing new technologies to improve resolution rates for valid complaints;
- Improving communication with all residents by pursuing foreign language translations of Web-based information resources; and
- Expanding regulatory authority through the legislative process to more effectively monitor and enforce fair and ethical business practices.

The Regulation and Licensing Branch regulates the operation of taxicabs for hire within the County by issuing operator certificates for taxicab companies and licenses to taxicab drivers, and conducting vehicle safety inspections and inspecting taximeters for accuracy. The Branch biennially recommends to the Board of Supervisors the appropriate number of taxicabs to respond to resident demand and reviews certificate applications. Further, the Branch investigates customer complaints and controls fare rates. In addition, the Branch is responsible for issuing licenses, permits or registrations to canvassers, peddlers, solicitors, vendors, promoters, massage establishments and technicians, pawn brokers, precious metal dealers, gem dealers, going out-of-business sales, charitable organizations soliciting within the County, and towing companies that engage in non-consensual towing of vehicles. Licensing staff issued 1,324 licenses in FY 2005. The Regulation and Licensing Branch provides utility rate case intervention on behalf of County residents, including petitioning the State Corporation Commission to change utility rates and services when appropriate, and works directly with the various utilities to encourage the development of beneficial consumer policies. In

Department of Cable Communications and Consumer Protection

in addition, this Branch conducts electrical contract negotiations for County government electric service with Dominion Virginia Power and Northern Virginia Electric Cooperative, which has resulted in favorable contract terms at the lowest cost for all County government agencies. Staff has developed and presented expert testimony before federal, state and local governmental bodies on behalf of the Board of Supervisors and residents. Staff saved Fairfax County residents a total of \$48 million in utility costs over the past ten years. The Regulation and Licensing Branch also educates and supports the combined total of 1,700 homeowners' associations, condominium unit owners' associations and civic associations that represent approximately 80 percent of the County population. For example, this Branch publishes a 300-page detailed Community Association Manual and hosts *Your Community Your Call* (YCYC) TV production shown on Channel 16. In addition, the Regulation and Licensing Branch provides staff support to the Tenant Landlord Commission which is composed of ten Fairfax County residents who are appointed by the Board of Supervisors for three-year terms. The Commission advises the agency and the Board of Supervisors on Tenant and Landlord issues within the community and arbitrates tenant-landlord complaints.

Key Performance Measures

Goal

To provide consumer protection services for consumers and businesses in Fairfax County in order to ensure compliance with applicable laws.

Objectives

- ◆ To achieve a favorable resolution rate of consumer complaints of 80 percent.
- ◆ To improve the percent of outreach contacts who report that educational programs met their associations' needs from 97 percent towards a target of 99 percent.
- ◆ To achieve a 95 percent completion rate for issuing permanent licenses within 60 days of application.
- ◆ To intervene in rate and service provision utility cases before the State Corporation Commission to ensure quality utility service at the lowest possible rates, to reach an estimated \$55 million in curtailed or limited rate increases, up from \$54 million in FY 2006.

(1) Rate change requests are typically processed every other year per code requirements. The number of rate requests received cannot be predicted.

(2) Biennial market demand analysis is conducted to determine control of entry.

Performance Measurement Results

The decrease from 90 percent to 80 percent of favorably resolved complaints in FY 2005 is due to the completion of the Cox Communications upgrade and change in complaint opening procedures. The total number of complaints is projected to remain steady during FY 2006 and FY 2007. Despite the decrease in complaint resolutions, staff recovered \$1,585,978 for County residents, a 7.9 percent increase over FY 2004. Staff completed six taxi rate studies in FY 2005. Four biennial rate requests were analyzed and implemented and emergency rate increase requests by two operators, due to the significant increases in gasoline costs, were analyzed and implemented. It is expected that if the gasoline costs remain high in FY 2006 and FY 2007, the taxicab company operators will file for additional emergency gas increase requests. Consumer Protection staff will continue participating with other local governments in seeking the lowest electric rates possible through the Virginia Energy Purchasing Governmental Association (VEPGA), which negotiates rates on behalf of local governments. During FY 2005, \$12.2 million was saved as a result of cumulative negotiated rates for County electric services. Consumer Protection staff will also continue monitoring and intervening in rate case proceedings at the State Corporation Commission in order to achieve the lowest utility rates for consumers that are both fair and equitable. The cumulative savings realized for consumers through these actions during FY 2005 was \$48.0 million. It is anticipated that the number of outreach seminars and programs will increase and continue to achieve at least 99 percent satisfaction ratings from organizations that attend such programs. Other, non-quantifiable performance measurements include: conducting background investigations on solicitors, pawnbrokers, massage establishments and technicians, and taxicab driver applications and inspecting taxicabs for accurate rate charges and operational safety.
